Floodlight

- A motion-activated floodlight that shines 2000 Lumens of brightness on driveways and other areas when motion is detected.
- Add this to any Ring Smart Lighting Starter Kit with Ring Bridge so you can get notifications, customize settings, and connect to other Ring devices - all from the Ring app.
- With the Echo (4th Gen), Echo Show 10 (3rd Gen), or Ring Bridge, you can connect this light with other Ring Smart Lights, Ring doorbells or cameras, and select Alexa-enabled devices to create a fully connected home security system.
- Connects to standard electrical boxes with hardwired installation to provide a steady stream of power.
- Ring Bridge required.
