Home Automation Made Easy

Smart Switch

- Voice control – AMAZON ALEXA AND GOOGLE ASSISTANT COMPATIBLE; requires a Z-Wave certified hub from brands including SmartThings, Ring Alarm, Wink, ADT Pulse, ADT Command, Trane, Vivint, Nexia, Honeywell, HomeSeer, Ezlo and more
- Revolutionary design – QuickFit design improved components and reduces housing depth by 20% while SimpleWire technology features patented auto-detecting line/load terminals to eliminate wiring guesswork
- Light commercial – Suitable for common home 120VAC or light-commercial 277VAC applications without additional equipment; white and light almond rocker paddles are included (more colors available) and it has an eight-color LED with four indicator modes
- Multi-switch capable – Works in single-pole or multi-switch configurations with up to four compatible add-on switches to maintain full functions of the smart device from every location or standard three-way switches for ON/OFF operation
- Universal compatibility – Z-Wave Plus and all previous Z-Wave generations work together to allow continued expansion of your home-automation network and repeats your wireless signal by up to 150ft.
