Solar Steplight

- Perfect for steps and walkways – a solar-powered steplight that shines 50 lumens of light when motion is detected.
- Ring Bridge, Ring Alarm Pro, Echo (4th Gen) or Echo Show 10 (3rd Gen) required to enable smart features, such as mobile notifications and customizable settings.
- Smart features – when connected to a Ring Bridge or compatible Echo Device, get mobile notifications, set schedules, turn the lights on and off, customize settings, and connect to other Ring devices – all from the Ring app.
- Powered by the sun – place your Ring Smart Light in direct sunlight to recharge and store power.
- Works with Alexa – pair with select Alexa-enabled devices via the Ring Bridge to turn lights on and off at the sound of your voice.
- Ring of Security – group your Ring Smart Lights together and connect to your other compatible Ring devices through the Ring app to always know what’s happening around your home.
